

Environmental Sustainability Policy

At Aerco NW Electrical Pty Ltd, environmental sustainability is a key part of how we operate. We are committed to minimizing our environmental impact and fostering sustainable practices across all aspects of our business. Our dedication to environmental responsibility reflects our values and supports the long-term well-being of our planet, our community, and future generations.

Our Commitment to Sustainability

- **Energy Efficiency Focus:** We prioritize designing and implementing energy-efficient solutions, such as LED lighting, smart systems, and optimized electrical installations, to help clients reduce energy consumption and costs.
- **Responsible Refrigerant Management:** We ensure the safe handling, storage, and disposal of refrigerants to prevent environmental harm, promoting the use of eco-friendly alternatives wherever possible.
- **Reducing Environmental Impact:** Through waste minimization, recycling, and emissions reduction, we actively manage our operations to lessen their environmental footprint.
- **Compliance with Laws and Standards:** We strictly adhere to all relevant Australian environmental legislation and industry guidelines, ensuring our operations meet or exceed required standards.
- **Continuous Improvement:** We review and refine our environmental practices regularly, incorporating innovative technologies and sustainable strategies to enhance our performance.

Our Objectives

- To reduce our carbon footprint by minimizing energy use, waste, and emissions across all operations.
- To responsibly manage refrigerants, ensuring compliance with environmental standards and minimizing their impact on climate change.
- To educate and empower our employees and contractors to adopt sustainable practices in their daily work.
- To integrate sustainability into every aspect of our business, from procurement to project execution.
- To maintain transparency by communicating our environmental efforts to stakeholders and the wider community.

A Shared Responsibility

At Aerco NW Electrical, we believe environmental responsibility is a collective effort. We actively involve our employees, contractors, and partners in implementing sustainable practices. Through training, communication, and collaboration, we strive to make sustainability an integral part of our culture.

We take pride in being a company that prioritizes sustainability and environmental stewardship. By embedding sustainable practices into our operations, we aim to set a benchmark for environmental excellence within the electrical and mining industries.
